- Have you reached the point on your spiritual journey when you're ready to take your knowledge and understandings to another level – wishing to discover the missing pieces of your 'jigsaw' so far created from all the various information gathered from books, workshops, websites and other people?
- To take your life experiences to a deeper level of meaning and mastery – fast-track your consciousness evolution?
- To discover your real Soul Purpose and Soul Codes, what you've come to do and why you are here?
- To find a better way to serve humanity and humanity's spiritual consciousness evolution?
- Or perhaps you're just ready to develop your spiritual self and don't want to spend years of scattered seeking, time-wasting dead-ends or sifting through frustrating conflicting information, preferring rather to go straight to the foundation or matrix level of Soul and spiritual consciousness keys?
- Or perhaps you're longing for a way to stay focused on your spirituality day by day, integrating it into your 3-D life and making it totally practical exoterically as well as inwardly and esoterically?

If you'd like to know how you can do any of the above then do read on – this could be your answer!

WELCOME to the AUM-OM MYSTERY SCHOOL for the 21st CENTURY!

Welcome to a new level in reclaiming your true Spiritual Power and Potential, the Sacred Path you laid out for this life! As countless adepts throughout the millennia have discovered, the most direct way to progress spiritually is through a genuine Mystery School, for only there can be found the vast field of reliable, proven Perennial Wisdom teachings which formed the *original* mystical foundations of all religions and spiritual paths.

These sacred teachings hold the keys to the **evolution of consciousness** through the ***Mysteries of Source, Creation, Soul Education, life and the Self/self. They have been carefully preserved and until now, held secret save for a privileged few lest they be defiled. Masters, Adepts and Initiates have passed them down through the ages – only now for the very first time are they openly available to those who have reached the necessary level of consciousness – if this is resonating then you may be one.

These mystical teachings have no dogma, rules or creeds, are not aligned with any one particular religion, path or –ism, and are not based on human interpretations or beliefs. Instead, they are the distillation of Universal Truth Principles and Laws first revealed to humanity around 4000 years ago to Abraham in Mesopotamia and Hermes Trismegistus in Egypt, the cradles of civilization.

Such is the lineage of this **modern 21st Century AUM-OM Mystery School** which is now offering anyone who feels ready to accelerate their spiritual progress, vastly expand their awareness, and unlock their Divine potential, the opportunity to do so through this unique 'university of the Soul' and School of Life.

*** **"Mysteries" refers to levels of knowledge and consciousness.**

Read what two recent Graduates experienced:

"The 'OM' course has provided a wonderful safe space to re-discover, embrace and integrate our soul's gift of eternal knowledge, which we have always known but which has remained hidden until we were ready to unveil. What an amazing journey, what an exceptional teacher and what special lifelong friendships have been formed along the way. I can't recommend this Training Course highly enough you will receive "soul tools" for life..... go for it.....your soul will love you for it! Sharalon

"Thank you for a most transformational journey – it truly has been a life-changing experience and every day I thank my Higher Self and your Higher Self for letting my path cross yours and making me take notice." Jeltje

WHAT MAKES THIS SO DIFFERENT?

This **modern 21st Century AUM-OM Mystery School** goes beyond merely teaching – it provides practical knowledge, tools and techniques which YOU can prove for yourself. Faith or belief are not necessary – rather the knowledge that leads to your own irrefutable experience that will result in transformational, life-changing effects, ongoing revelations and insights. In addition, these ageless Universal Truth Principles and Laws are now being explained and validated through today's leading-edge research and the new sciences of neuroscience, quantum physics, Zero Point Energy Field,

Vibrational Science, and Epigenetics to name a few.

This course does **not** promise the illusions of ‘instant enlightenment’ or spiritual growth without having to do any work which sadly in this ‘fast food’ age are enticing the unwary with easy “quick fixes” by someone whether in physical or non-physical form, or some process outside of themselves! As all Masters, Adepts, Initiates have taught – there is no shortcut to true spirituality, no-one else or no thing can do it for us.

Anything that results in permanent spiritual advancement and Soul evolution takes work - albeit pleasurable - time, focus, discipline and self-commitment. This is why this unique year-long course is **structured to include both regular home-based study plus six weekend Tutorials that provide in-person instruction where interaction and questions are welcomed, meditations and processes that provide meaningful insights and energies are experienced, understandings are explained in-depth, and ‘loose ends’ are tied!**
